

GUEST CALL

Reduce the congestion at the counter and improve your guests' experience with our Guest Call system. Give guests a pager while they wait for their table to be ready. When their table is ready, page the guest from the counter. No more mispronounced names, blaring overhead speaker systems or chaos at your counter.

COMPONENTS

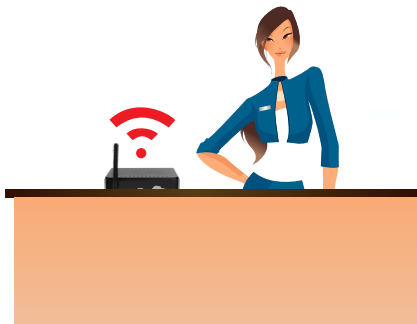

Coaster:
one per guest

T20 Host:
one per location

HOW IT WORKS?

Counter/Hostess

A

B

Guest

A

Give guests a pager while they wait for their table.

B

When their table is ready, page the guest.

FAST & EASY

Slide the coaster over the scan area to add a guest.

BUILT-IN WAIT LIST

With a built in digital display you can track waiting time, know who is next in line and easily call guests with just the push of a button.
